

Free Energy Code Online Discussion for Building Department Personnel

Decoding HVAC:

Let's Talk Residential HVAC Changeouts for Field Inspectors

Join us for this FREE 90-minute interactive online event to discuss and decode Title 24 Part 6 residential HVAC changeout compliance triggers and paperwork under the 2008 standards.

Not your typical webinar, this event is designed to both offer and gather information on technical aspects of the code, "best practices" developed by you and your building department, and the challenges you may face in the field as a building inspector. Our technical experts will guide the discussion based on the answers you and your colleagues give to questions we'll ask you at registration.

[Gina Rodda](#) of Gabel & Associates, LLC, along with her guest speaker [Bruce Cheney](#) from Anchors Aweigh Energy, LLC want to hear from YOU on residential HVAC changeout issues like:

- Field inspection preparation
- Time management
- Dealing with non-compliant projects

Let's talk about how to make your field inspection process faster, easier and more accurate.

Date: 3 dates currently offered, choose the one that works for you — *availability subject to enrollment levels:*

- Tuesday, October 1 – [Click here to register](#)
- Wednesday, October 2 – [Click here to register](#)
- Thursday, October 3 – [Click here to register](#)
